Application/Control Number: 10/621,416

Art Unit: 2676

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or suggest individually or in combination an image process device including an image process unit and a system control unit and having first and second packet transfer means, wherein the system control unit further comprising the uniquely distinct features: "first and second transfer means in control unit transfer the data packets using mutually different connection paths between the system control unit and image process unit" (as per claim 1). The above limitations of the present claims invention have not found to be anticipated, suggested or made obvious by the prior art of record, either singularly or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Miyamaet al (US Patent No. 4,918,644) taught a system containing loop shaped transmission paths for transmitting data packets using a plurality of latches connected in cascade fashion.

Application/Control Number: 10/621,416

Art Unit: 2676

Tabata et al (US Patent No. 5,918,063) taught a data driven type information processing apparatus including plural data driven type processors and plural memories.

Yuasa (US Pub. No. 2003/ 0016390) taught an image processing apparatus and method.

Morimoto et al (US Pub. No. 2002/ 00416336) taught a moving image decoding and reproducing apparatus, moving image decoding and reproducing method, time control method, computer program product for decoding and reproducing moving image and multimedia information receiving apparatus.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mackly Monestime whose telephone number is (703) 305-3855. The examiner can normally be reached on Monday to Thursday from 7:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bella Matthew, can be reached on (703) 308-6829.

Any response to this action should be mailed to:

Commissioner of Patent and Trademarks

Washington, D.C. 20231

or faxed to:

(703) 872-9314 (for Technology Center 2600 only)

Hand-delivered responses should be brought to Crystal Park II, 2121 Crystal Drive,

Arlington, VA, Sixth Floor (Receptionist).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Technology Center 2600 Customer Service Office whose telephone number is (703) 306-0377.
